

Sinclair Broadcast Group's determined intention to use the airwaves to spread political propoganda in the form of the anti-Kerry infommercial are absolutely frightening. The law obligates them to serve the public interest with the free airspace they control, and yet they are using that space in a highly irresponsible way.

We need to strengthen media ownership rules, not weaken them. The license renewal process needs to involve a lot more than a returned postcard.

Yours truly,

Lillian Jones
